Summary

Full Stack Web Developer with a background in manufacturing and customer service. Recognized as a fast learner, excellent problem solver and effective collaborator. Recent graduate of the University of Utah's full stack coding bootcamp.

Technical Skills

Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap, Bulma, Tailwind, React

Backend: MySQL, NoSQL, MongoDB, Mongoose, Express, ReactJS, Node, Handlebars, RESTful API, Sequelize, Jest, Benchmark

Projects

Only Bands | <https://github.com/Thenlie/OnlyBands> | onlybands.herokuapp.com/ Group Member

- Only Bands is a central hub for music lovers! Track your favorite artists and albums, share which concerts you have been to and more!
- This was the first full stack application I made from start to finish using an express server and sessions.
- Tools/Languages: JavaScript, HTML, CSS, Node, Express, MySQL, Tailwind, 3rd Party API's

Streamability | <https://github.com/Thenlie/Streamability> | streamability.herokuapp.com/ Group Lead

- Streamability is a website to find where to stream your favorite shows and movies. You can also create a personalized watch queue and get recommendations based on shows you like.
- This was the first big project I did as a developer. I was elected as project lead so I got practice working with others, delegating tasks, and planning a project from the ground up. This was initially a front end only application but I have since added a backend on my own.
- Tools/Languages: JavaScript, HTML, CSS, 3rd Party API's

Experience

Black Diamond Equipment 2017-Current

Manufacturing Tech, Engineering Tech, Service Center Specialist SLC, UT

- Moved through the company faster than any of my peers and got to positions that were initially not something I qualified for.
- Worked on the sustainability committee to help reduce the environmental impact of the company by reducing returns and increasing reparability of products.
- Redesigned technical training documents that are still used at the company for training new operators

Green Leaf Industries

2016

Material Handler

Lenoir City, TN

- Trained and certified in ISO 9001 quality management.
- Expanded 5S manufacturing knowledge, implemented lean practices at the company like weighing and recording scrap material

- Decreased machine down time by improving the cleaning process, increasing profitability for the company

Prototype Composites

2014-2015

Floater

Glendale, WI

- Progressed by working my way up from janitor to the head of the Aeromotions wing division
- Touched every process at the company. Became the "jack of all trades"
- Lead polisher and in charge of final QC for all products
