Projects

Type++| https://github.com/Thenlie/type-plus-plus | typeplusplus.herokuapp.com/
Project Manager
- Type++ is an online game where you can test your typing speed against yourself and friends.
- First complete MERN stack project
- Built out Kanban boards using Trello
- Lead the group as project manager, delegating tasks, architecting the application, and managing group meetings
- Tools/Languages: MERN Stack, Javascript, NPM

Only Bands | https://github.com/Thenlie/OnlyBands | onlybands.herokuapp.com/
Group Member
- Only Bands is a central hub for music lovers! Track your favorite artists and albums, share which concerts you have been to and more!
- First solo full stack application, built from start to finish using an express server and sessions
- Tools/Languages: JavaScript, HTML, CSS, Node, Express, MySQL, Tailwind, 3rd Party API's

Streamability | https://github.com/Thenlie/Streamability | streamability.herokuapp.com/
Project Manager
- Streamability is a website to find where to stream your favorite shows and movies. Users can also create a personalized watch queue and get recommendations based on shows they like.
- Built as a front end only app with the later addition of a back end.
- Built completely from scratch using JavaScript, HTML, Bulma CSS and third party APIs.
- Lead the group as project manager, delegating tasks, architecting the application, and managing group meetings
- Tools/Languages: JavaScript, HTML, CSS, 3rd Party API's

Experience
